### Council Records Project

During the Summer of 2020, the Office of City Council undertook a comprehensive review of all records maintained by the Office, how they were stored, and how best to store them in the future. This effort grew into the ongoing Council Records Retention Project planned to take place over the next three years. This effort is summarized in the 2020 *Records of the Office of City Council* report. Notable initiatives undertaken this year include:

The next step in this effort will be to link the database to actual ordinance and minute records.

#### New Server and File Migration/Cleaning

Files are still be sorted, cleaned, and scanned in order to make this storage of records complete.

#### Adoption Collaboration Software

The Office of Council adopted the use of several different pieces of software available to the City through its Office 365 subscriptions.
